

MINUTES OF THE MEETING

The Department of Botany Staff held a meeting on 03-11-2025 and passed a resolution to organize an eco- friendly study tour to maredumalli under the guidelines of faculty of Botany Department.

These fieldtrip was planned to organize on 10-11-2026 for the academic year 2025 – 2026 to B.sc Honours botny students under the currirculum enrichment programme.

**S.K.V.T. GOVERNMENT DEGREE COLLEGE:: RAJAHMUNDRY
DEPARTMENT OF BOTANY**

CIRCULAR

Date: 6/11/ 2025.

The Department of Botany is pleased to inform that an **Eco-Friendly Botanical Study Tour** is being organized for the students of **II & III B.Sc. (Major: Botany)**.

The study tour is scheduled to be conducted on **10th November 2025** at **Maredumilli**, a region well known for its rich biodiversity, forest ecosystem, and ecological significance.

Objectives of the Study Tour:

- To provide field-based learning on plant diversity and forest ecosystems
- To create awareness about conservation of natural resources and eco-friendly practices
- To study flora in their natural habitat
- To enhance practical knowledge beyond classroom learning

Details of the Tour:

- **Place:** Maredumilli
- **Dates:** 10-11-2025
- **Participants:** II & III B.Sc. Botany students
- **Organized by:** Department of Botany

All interested students are instructed to register their names with the Department of Botany on or before **8 /11/ 2025**. Students are advised to follow eco-friendly practices during the tour and maintain discipline throughout the program.

For further details, contact the Department of Botany.

DEPARTMENT OF BOTANY

REPORT ON ECO-FRIENDLY BOTANICAL STUDY TOUR TO MAREDIMILLI

Date of Tour: 10-11-2025

Organised by: Department of Botany, SKVT Government Degree College

Participants: II & III Year B.Sc. Botany Students with Faculty Members

Venue: Maredimilli Forest, East Godavari District, Andhra Pradesh

1. Introduction

The Department of Botany, SKVT Government Degree College, organised an **eco-friendly botanical study tour** to **Maredimilli**, a region renowned for its rich biodiversity, lush evergreen forests, and well-preserved tribal ecosystems. The primary objective of this tour was to provide students with hands-on exposure to forest ecology, plant diversity, and conservation practices. The tour was conducted on **10 November 2025**.

2. Objectives of the Tour

- To study the **flora of Maredimilli** including rare, endemic, and medicinal plant species.
 - To understand **forest ecosystem dynamics**, including plant–soil–climate interactions.
 - To familiarise students with **ethnobotanical knowledge** of local tribal communities.
 - To promote **eco-friendly behaviour**, conservation ethics, and sustainability awareness.
 - To provide students practical exposure beyond classroom learning.
-

3. Places Visited

- **Maredimilli Forest Range**
 - **Jalatarangini and Swarnadhara waterfalls** (for hydrophyte and bryophyte survey)
 - **Community-run Eco Tourism Centre**
 - **Tribal Plant Resource Garden**
 - **Butterfly and Insect Observation Zones**
-

4. Activities Conducted

a. Plant Identification & Herbarium Work

Students identified numerous species belonging to families such as Fabaceae, Euphorbiaceae, Asteraceae, and Poaceae. They collected photographs and prepared field notes for herbarium development.

b. Study of Medicinal Plants

Local guides and tribal community members explained traditional uses of medicinal plants like

Rauvolfia serpentina, *Andrographis paniculata*, *Terminalia chebula*, *Curcuma longa* etc.

c. Ecological Observation

- Analysis of canopy layers
- Observation of macro- and micro-habitats
- Soil texture and moisture assessment
- Hydrophyte diversity near streams and waterfalls

d. Ethnobotanical Interaction

Students interacted with the **Konda Reddi** tribal community to learn about:

- Plant-based dyes
- Edible forest plants
- Traditional healing practices
- Sustainable harvesting methods

e. Eco-Friendly Guidelines Followed

- Zero plastic policy
- Use of reusable water bottles
- Maintenance of forest cleanliness
- Respect for wildlife and local culture

5. Learning Outcomes

By the end of the tour, students were able to:

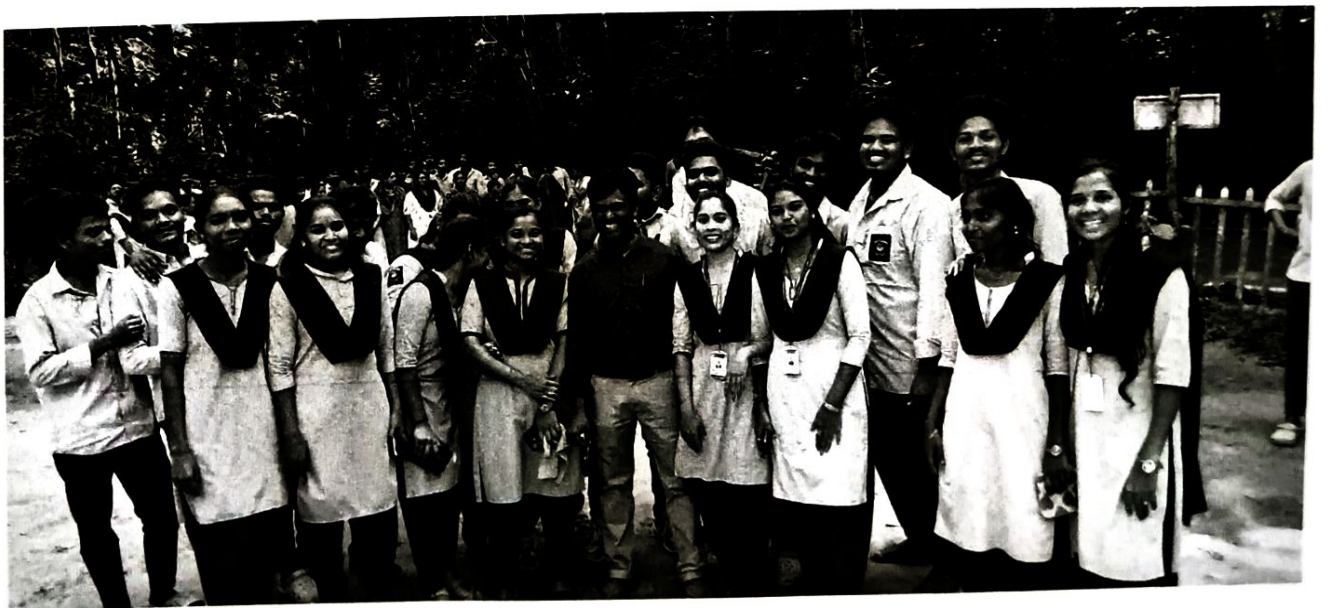

1. **Identify diverse plant species** using morphological characters and standard botanical methods.
2. Demonstrate understanding of **forest ecosystems** and how biotic and abiotic factors interact.
3. Gain practical knowledge of **medicinal plants and their ethnobotanical uses.**

4. Develop skills in **field data collection**, herbarium preparation, and ecological documentation.
5. Show improved awareness of **biodiversity conservation**, sustainability, and eco-friendly practices.
6. Understand the significance of **tribal knowledge systems** in modern botanical science.
7. Enhance teamwork, observation, communication, and scientific reporting skills.

6. Conclusion

The eco-friendly botanical tour to Maredimilli proved to be a highly enriching and educational experience for the Botany students of SKVT Government Degree College. The exposure to diverse plant species, forest ecology, and traditional knowledge significantly strengthened their understanding of the subject beyond classroom theory. The tour also instilled in students a deep appreciation for nature, biodiversity, and the importance of sustainable environmental practices. Overall, the event successfully achieved its academic and ecological objectives and contributed to the holistic development of the students.

ECO-FRIENDLY BOTANICAL STUDY TOUR – QUESTIONNAIRE

Section A: General Information

1. Name of the Student:
2. Class & Roll Number:
3. Date of Visit:
4. Name of the Study Area / Forest Site:
5. Weather Conditions during the visit:

Section B: Flora and Biodiversity

6. List at least **5 plant species** observed during the tour.
7. Identify any **medicinal plants** and mention their uses.
8. What types of vegetation are dominant (evergreen / deciduous / semi-evergreen)
9. Observe and record any **endemic or rare plant species**.
10. What are the adaptations seen in plants growing in forest conditions?

Section C: Forest Ecology

11. Describe the **forest structure** (canopy layers, understory, ground vegetation).
12. What are the major **biotic and abiotic components** observed?
13. Explain any **plant-animal interactions** noticed (pollination, seed dispersal).
14. What role do **microorganisms** play in this ecosystem?
15. How does this forest contribute to **soil conservation and water retention**?

Section D: Environmental Awareness & Sustainability

16. What eco-friendly practices were followed during the tour?
17. How can tourism impact forest ecosystems?
18. Suggest **measures to reduce environmental impact** during such tours.
19. What is the importance of **biodiversity conservation** in areas like Maredumilli?
20. Did you observe any signs of **human disturbance**? Explain.

Section E: Practical Observation & Skills

21. Sketch or describe any **plant morphology** observed (leaf, flower, fruit).
22. Collect and document **non-destructive samples** (like fallen leaves).
23. How did you identify plant species (field guide, teacher assistance, etc.)?
24. What tools or techniques were used for observation?
25. Record any **interesting ecological phenomenon** you observed.

Section F: Reflection & Learning Outcomes

26. What new knowledge did you gain from this study tour?
27. How did this tour help in understanding **theoretical concepts**?
28. What skills did you develop (observation, identification, teamwork)?
29. What challenges did you face during the tour?
30. Give suggestions to improve future botanical study tours.
